

# NIEM MILOPS

## STAKEHOLDER ENGAGEMENT

Wednesday, 14 September 2022

Time	Topic	Presenter
1000-1005	Opening Remarks	Ms. Beth Smalley
1005-1010	Review NIEM Open MILOPS Charter	Ms. Beth Smalley
1010-1020	NIEM Open OASIS Transition Status	Mr. Steve Sullivan
1020-1030	NIEM 5.2	Ms. Christina Medlin
1030-1050	Cogent Way	Mr. Jeff Iannazo
1050-1055	Open Discussion	All
1055-1100	Closing Remarks	Ms. Beth Smalley

# OPENING REMARKS / INTRODUCTIONS

Beth Smalley

# NIEM OPEN MILOPS CHARTER

Beth Smalley

- MILOPS Domain Charter ready for signature
- Slimmed down compared to old Charter
  - Authority
  - Overview
- Operations and Maintenance Documentation
  - Updated as needed
  - Day to day operations
  - Domain Membership
  - CCB Process
  - Communication
  - Technical Support

# NIEM OPEN OASIS TRANSITION STATUS

Steve Sullivan

- ✓ NIEM Open Charter
- ✓ Conducted NIEM Annual Meeting 15-19 Aug Focused on OASIS Transition
  - Sponsorship - 3 Sponsors have signed, more needed
    - DoD Joint Staff J6
    - DHS Science and Technology (S&T)
    - Equivant
- ✓ NIEMOpen.org Web Presence & OASIS - Jira & Confluence Tools online
  - Updating NIEM Governance Documentation Congruent with OASIS Open Project
    - ✓ NIEM Open Charter
      - NBAC & NTAC governance drafts in progress
- ✓ Cataloguing NIEM Capital/Equities for Transfer
- ✓ Transition ESC & NIEM Open PGB Kickoff scheduled for 20 Oct

# NIEM 5.2

## Notes

- NIEM 5.2 will be a minor release and will include updates to domains and code sets
- Check release status at <https://niem.github.io/niem-releases/>

## Expected changes

- **Cyber** domain – Cyber Physical System (CPS) content and SLTT Cyber Incident Reporting Requirements (CIRR) updates
- **Learning and Development** domain (*new*) – New content for courses, course sections, students, and employment positions
- **MilOps** domain – Minimum Essential Metadata (MEM) and USMTF content
- Code set updates

	Phase	NIEM
	MOMS 5.1	APR 2022
	Alpha 1	AUG 2022
	Beta 1	SEP 2022
	RC 1	OCT 2022
	Release	Fall 2022
	MOMS	Q1 2023

UNCLASSIFIED

# Data & Mission Modernization

## Introducing Target Mission Architecture & Cogent Way Project Dual-use Title 10/50 Data Modernization

**Joint Staff J2F/J28**

**14 Sep 2022**

*Update since Introduction to MilOps Community on 08 June 2022*

# TMA IO&I – Cogent Way Refresher

- **Multi-year Project:** Advocated by Joint Staff (JS) J2F and J6 for scalable Integrated Operations & Intelligence (IO&I)
- **Concentration:** Reveals & addresses data, data science, and systems engineering gaps; employs problem/INT/Weapons/Domain-agnostic approach for Inter-Agency and Intra-Agency modernization
  - ~90% of mission-essential data unavailable to Data Scientists; data not architected for machine-understandability
  - No scalable ability to aggregate information from siloed data
  - Lack of Data Science talent for Graph analytics and scalable Artificial Intelligence (AI) & Machine Learning (ML)
- **Partner Engagement:** Collaboration with USD(I&S), OUSD R-E, JS J6 (JADC2, NIEM, AIC2 WG), CDAO, IC CDO, CIA, DIA, DHS, LOE, NRO, NSA, USAF, Navy, Army, SOUTHCOM, NORTHCOM, INDOPACOM, AFRICOM, DTIC, & DOD-IC Ontology Working Group (DIOWG)
- **DTRA RD & SOUTHCOM:** Postured to deliver first-of-kind capabilities—Linked Data Environment (LDE)—on JWICS & NIPR that aggregate information in Enterprise Knowledge Graph form & enable Graph-powered AI

# TMA IO&I – Cogent Way Refresher

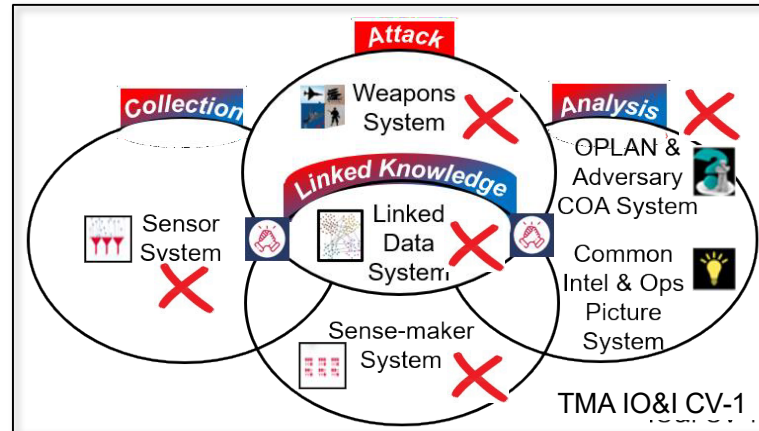

Data Emphasis drives Architecture Modernization

**X** No scalable orchestration systems in current ecosystems

Target Mission Architecture for Integrated Operations & Intelligence (TMA IO&I)

Current DoDAF Portfolio:  
AV-2, OV-1, CV-1, OV5a, OV5b, CV-2

UNCLASSIFIED

UNCLASSIFIED

# TMA IO&I – Cogent Way Refresher Vector

## Data Modernization

Semantic Interoperability  
Human- and Machine-Understandable &  
Actionable

## Data Science Modernization

Graph Analytics in concert with  
data analytics

## Integrated Operations & Intelligence (IO&I)

### Target Mission Architecture (TMA)

Overarching JADC2 &  
Mission-specific Ecosystems across DOD, IC, & Law Enforcement

UNCLASSIFIED

UNCLASSIFIED

## Status (as of 14 Sep 2022)

- **Project Phase:** Execution
- **Mission Use Cases:**
  - Humanitarian Assistance & Disaster Relief per U.S. SOUTHCOM CONPLAN 6150 Responsibility
  - Weapons of Mass Destruction Chemical, Bio, Nuclear, and Hypersonic Weapons Production via DARIUS Use Case
- **Supporting and Receiving Guidance From:**
  - Joint Staff J2F and J6
  - IC CDO
  - CDAO
- **Key Teammates Working to Deliver Capabilities:** USAF/AFRL; Navy: OPSNAV N2/N6, Naval Postgraduate School; U.S. SOUTHCOM; DTRA RD & IT Directorates; JS J2F85, JS J6 NIEM, Department of Treasury Office of Foreign Assets Control

## Progress – IC Chief Data Office (CDO)

- IC CDO Team leading Data Centricity action per Consolidated Intelligence Guidance (CIG) Strategic Objective #8, Programmatic Activity #29 – a CIG 2024-2028 Modernization Activity

Through this CIG 2024-2028 Data Centricity Action, TMA IO&I via Cogent Way introduces a data architecting approach to achieve machine- and human-understandability & action that is not exclusive to any specific Issue; rather Issue-agnostic.

UNCLASSIFIED

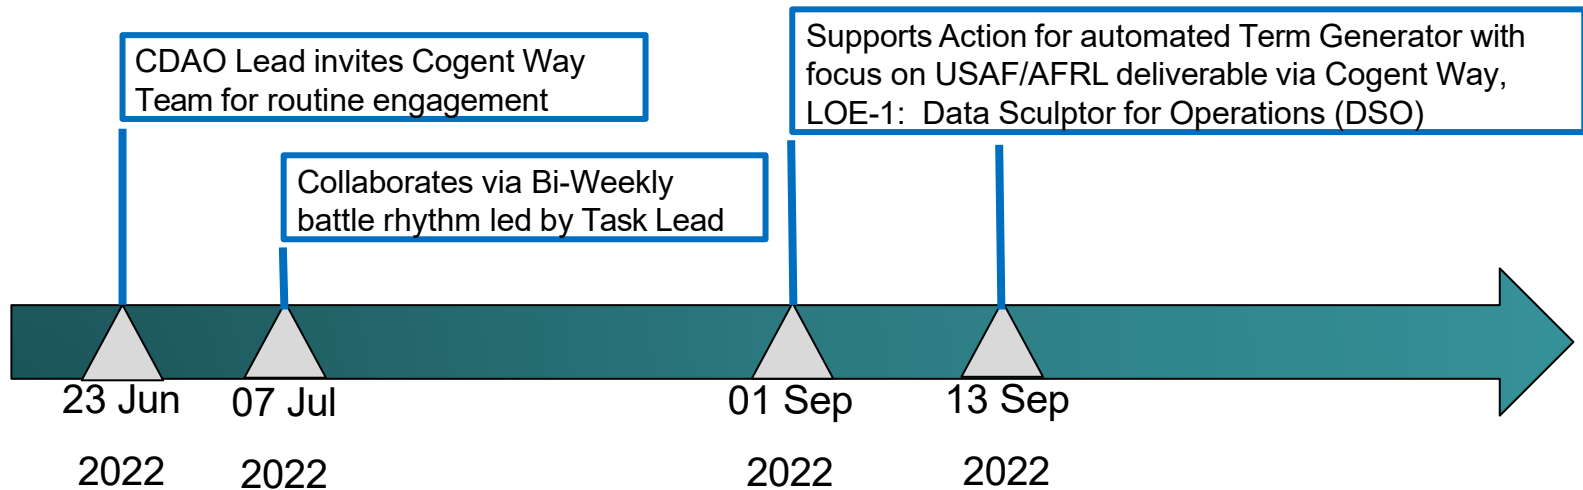

UNCLASSIFIED

## Progress – Chief Data and Artificial Intelligence Office (CDAO)

- CDAO Team leading Canonical Controlled Vocabulary activity in support of JADC2 Data Modernization: JADC2 LOE-1, Task 1.2A: Manage/Align Data Vocabularies Working Group

**Working across multiple organizations and driving towards common envisioned end-states for data modernization. Facilitated introductions among CDAO, IC CDO, and DHS/CBP Leads. Through Cogent Way execution, bridging IC, DOD, and Law Enforcement activities in support of unified approach.**

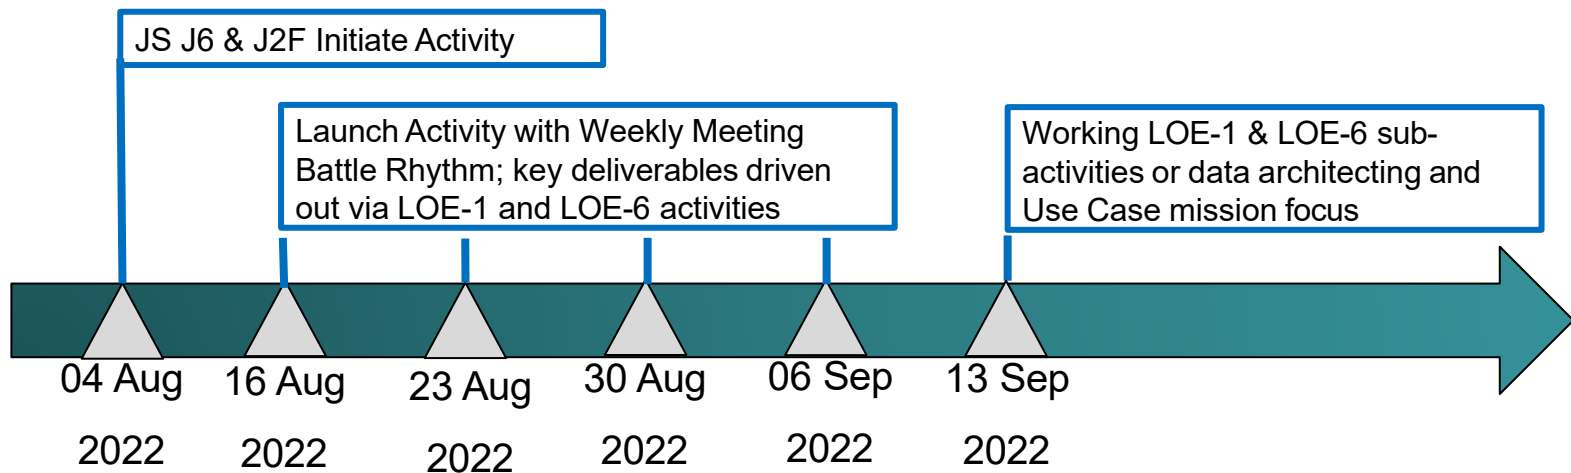

UNCLASSIFIED

UNCLASSIFIED

## Progress – SOUTHCOM Activity

- Joint Staff J6, in coordination with J2F, launch a TMA IO&I-driven Cogent Way Activity with U.S. SOUTHCOM and Department of Treasury in support of JADC2 Expectations for seamless, dynamic U.S. Title 50 / Title 10 capabilities

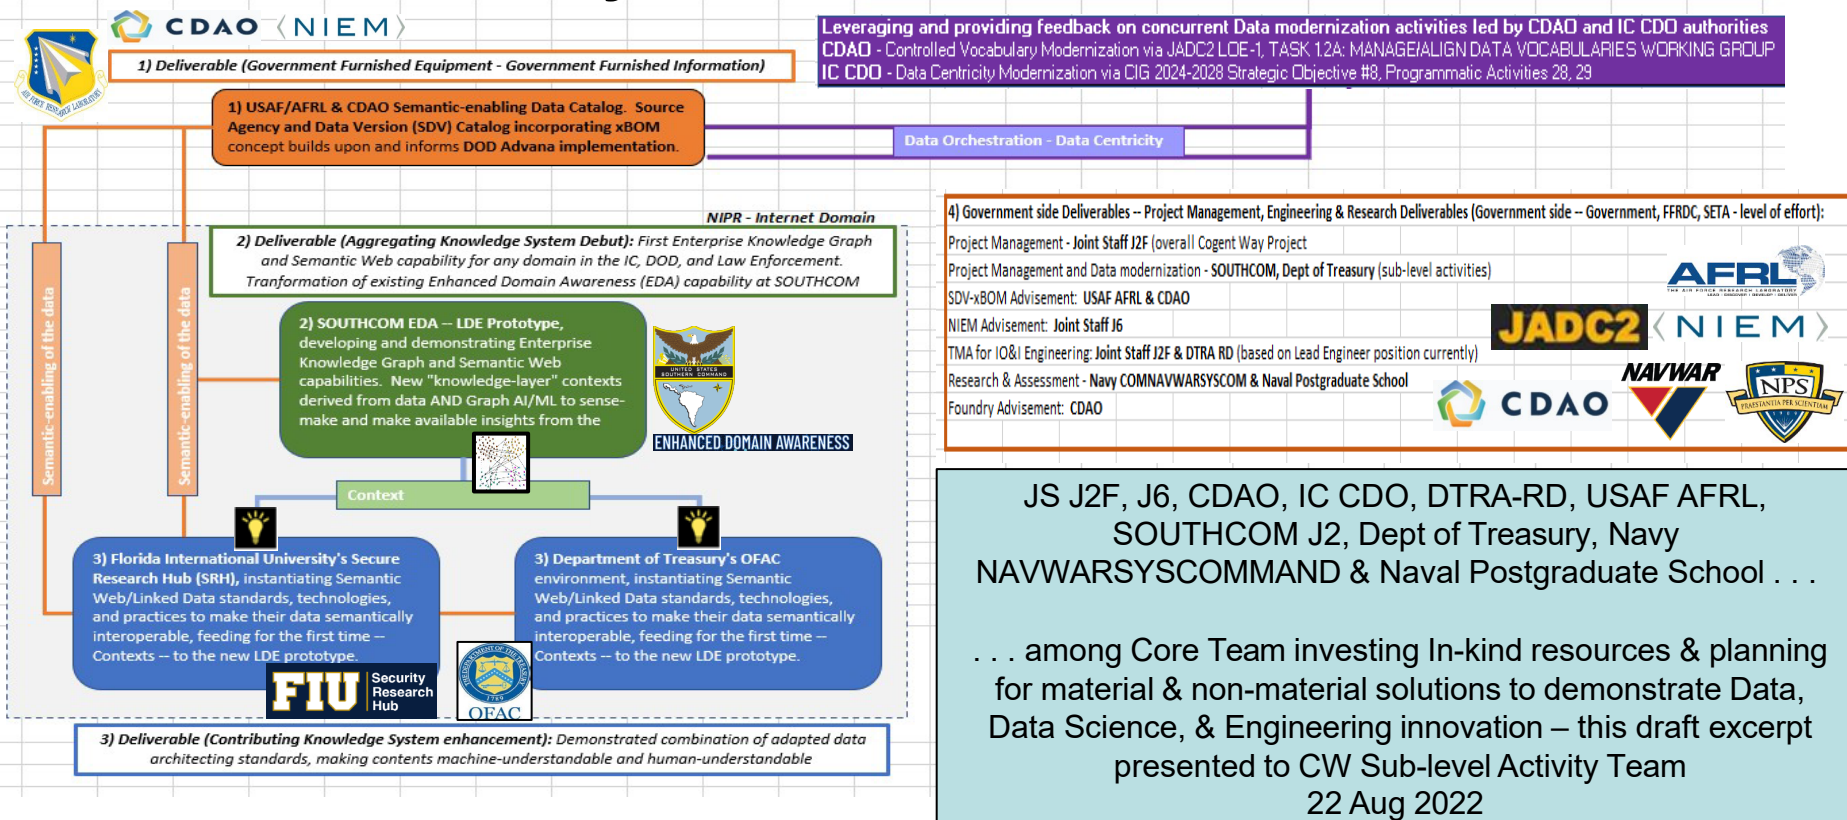

UNCLASSIFIED

## Forecast (as of 14 Sep 2022)

- **Project Phase:** Continue over next 12 months; identify and acquire resources for iterative progress.
- **Debut Key Deliverable:** Semantic-enabling capability from USAF/AFRL – Data Sculptor for Operation (DSO) via Cogent Way LOE-1 (Data/Knowledge Aggregation).
  - Apply in context of support to CDAO and IC CDO Data Modernization Activities
  - Inform current DOD, IC, and Law Enforcement acquisition baselines for data management
- **Continue Growing Cogent Way Team**
  - **NIEM MilOPS Participation welcomed – an immediate opportunity**
  - Welcome and learn from new Partners – understand, apply where applicable, and expedite progress
    - Introduce current and planned NIEM practices in mission systems
    - What are exemplar uses of NIEM in the MilOPS Community serving current missions?
    - What are plans going forward to advance NIEM-enabled capabilities?

UNCLASSIFIED

UNCLASSIFIED

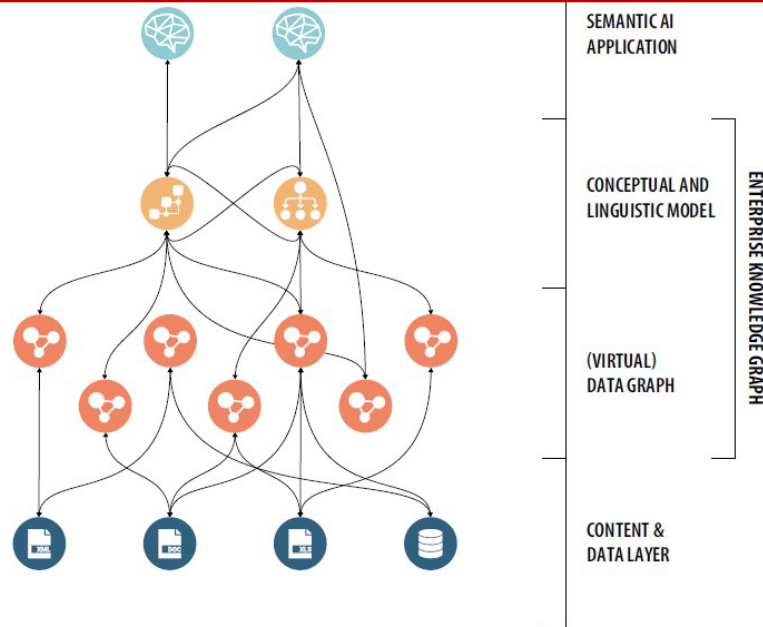

## Bonus Item: A Useful Reference

This capability does not exist in IC, DOD, and Law Enforcement segments

TMA IO&I via Cogent Way addresses this need

Consequently, vendor-lock systems are mass-duplicating/co-locating data because of the absence of virtual data/knowledge layer
